Senators, will happen at 7 o'clock this evening, and to-morrow at 12 M., the formalities of an election will be attempted. Just now this business seems to be the all-absorbing, all-exciting topic of conversation in every nook and corner of this parties concerned. For my own part, I profess to-know nothing whatever of State secrets, and

to-day, resulting from an "absquatulation" of one of the clerks of a bank located in this city. The bank had specie to a large amount in its vaults, which was under the care and responsibility of a young man, in whom the utmost confidence was placed by the officers of the bank. He resigned his commission in the bank last Saturday evening, and left town on Sunday morning, in the steamboat United States for Buffalo, since which nothing has been heard of him. On Thursday afterneon, the bank had occasion to open several boxes of specie, one of which was found to be partly filled with shot. This led to a further examination of the boxes in the vault, and some four or five boxes were found in the same condition, part of the money having been taken out of each, and the vacancy occasioned supplied with shot. The amount missing has not bren made public; rumor intimates it to be about \$2,500 to \$3,000; the exact amount is only known to the officers of the bank, who are mum to all interrogatories on this topic. An investigation is now progressing, and it is said, some curious transactions and queer doings will be brought to light.

A duel, or "affair of honor," was fought on the opposite side of the river yesterday morning, between two young Canadian "bloods," which resulted in severely wounding one of the parties for his folly. The affair originated in a dispute on American politics. The parties were a "Polk man," and a "Clay man." B — was wounded in the left side, near the waist, at the first fire, and thus the affair terminated. Another duel is brewing in the same quarter—a lady is the cause.

The Legislature of this State is now in session here, and the proceedings of that body are truly interesting and amusing to admirers of legislative "bulls." Massachuserrs Citizens.—Some thirteen free men of color, who came here on board of vessels from the free States of the Union, were yesterday placed in confinement by the Second Mubicipality police, in pursuance of the act forbidding free persons of color to come within the limits of the State. Such an impertinent interference without internal laws as that et which massechusetts has been guilty, but tends to increased vigilance on the part of our police in these matters.—N. Orleans Pic. NEW YORK, 20th Jan., 1845.

James Gordon Bennett, Esq.:—

Dear Sir:

Would that be taking too much liberty in asking you to have Bishop Hughes' lectures reported in your most valuable and inestimable paper? Cannot but congratulate on the immense good you have done to the public at large, and particularly to the epiritual and religious cause, by reporting sermons and lectures.

You do, dear sir, the greatest service to the cause of truth and God. I allude in particular to the Rev. Dr. Pise's lectures, which I would not give for all the gold in the world.

Your's, truly and sincerely,

An Old Friend.

PHILADELPHIA, Jan. 18, 1845.
To the Editor of the Herald:—

my full rights and privileges in this matter, although no other gehtleman expressed a similar opinion.

So much for myself. Next as to this corporation, which, deriving its powers and privileges from the people for purposes of public utility and benefit, is, therefore, amenable to public opinion, and consequently open to critical animadversion upon its merits or demerits.

In January, 1844, two different reports were prepared and printed, to be submitted to the annual meeting. One of these was suppressed. The suppressed report is not in my possession, but I can have access to it whenever the directors think proper to deny its existence. The suppressed statement contains the President's report, giving an item of debt and liability amounting to two millions eight hundred thousand dollars, which item is omitted in his report printed and furnished the stockholders.

One more fact, and I am done. In the month of December, 1843, or about that time, an article appeared in the New York Journal of Commerce, inviting subscriptions to the second track loan, in which a very particular statement is given of the whole debt and capital, which the writer, acting apparently on behalf of the company, gives at about five and a half millions. In November, 1844, eleven months afterwards, the same debt and capital is admitted by the company to be about ten millions. Very respectfully, yours,

WM. MAULE, 46 Walnut street.
